INDEPENDENT AUDITOR'S REPORT

The Honorable Chairman Members of the Board of Commissioners DeKalb County Public Building Commission Sycamore, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the DeKalb County Public Building Commission (the PBC), Sycamore, Illinois, a component unit of DeKalb County, Illinois, as of and for the year ended December 31, 2010, which collectively comprise the PBC's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the PBC's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities and each major fund of the DeKalb County Public Building Commission, Sycamore, Illinois, as of December 31, 2010, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The required supplementary information as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The PBC has not presented a management's discussion and analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the PBC's basic financial statements taken as a whole. The supplementary financial information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary financial information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

December 31, 2010

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The DeKalb County Public Building Commission (the PBC) is a quasi-governmental unit created by the DeKalb County Board in May 1978 under the authority of Chapter 50, Act 20 of the Illinois Compiled Statutes.

The financial statements of the PBC have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the PBC's accounting policies are described below.

a. Reporting Entity

The PBC is governed by a five-member board appointed to staggered five-year terms by the DeKalb County Board. The PBC is responsible for the construction, refurbishing and/or maintenance of county buildings for which lease agreements are executed with DeKalb County (the County). As required by generally accepted accounting principles, these financial statements present all funds of the PBC. A component unit is a legally separate organization for which a primary government is financially accountable. There are no component units included. However, the PBC is considered to be a component unit of DeKalb County, Illinois, since its sole purpose is to finance, construct and maintain certain of the County's public buildings.

b. Basis of Presentation

The accounts of the PBC are organized and operated on the basis of funds. Funds are independent fiscal and accounting entities with self-balancing sets of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. A minimum number of funds are maintained for this purpose.

The following fund categories (further defined by fund type) are used by the PBC:

Governmental Funds are used to account for the PBC's general activities. The General Fund is the primary operating fund, accounting for all financial resources not required to be accounted for in another fund. Capital Projects Funds account for the acquisition of capital assets or construction of major capital projects not financed by another fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Basis of Presentation (Continued)

Enterprise Funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities are provided to outside parties (enterprise funds). Pursuant to GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds*, the PBC has chosen to apply all GASB pronouncements as well as those FASB pronouncements issued on or before November 30, 1989 to account for enterprise funds.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the PBC. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes or intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

The PBC reports the following major governmental funds:

The General (Corporate) Fund is the PBC's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

c. Government-Wide and Fund Financial Statements (Continued)

The following capital projects funds are also major governmental funds:

The Capital Improvement Fund is used to account for funds set aside for future improvements to the County's facilities.

The Renewal and Replacement Sycamore Campus Fund is used to account for operation and maintenance funds paid by the County to the PBC.

The Renewal and Replacement Community Outreach Building Fund is used to account for operation and maintenance funds paid by the County for the Community Outreach Building to the PBC.

The Renewal and Replacement Health Fund is used to account for operation and maintenance funds paid by the Health Facility to the PBC.

The Renewal and Replacement Public Safety Fund is used to account for operation and maintenance funds paid by Public Safety to the PBC.

The Community Outreach Building Fund is used to account for the construction of a new social service building.

The PBC also reports the following major proprietary fund:

The Sinking Fund is used to account for the lease payment from the County and the related payments on the 2005 lease revenue refunding bonds.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses in the proprietary fund are directly attributable to its operation of the funds.

DEKALB COUNTY PUBLIC BUILDING COMMISSION SYCAMORE, ILLINOIS NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all governmental fund revenues. Expenditures generally are recorded when a fund liability is incurred.

The PBC reports unearned revenue on its financial statements. Unearned revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period, under the modified accrual basis of accounting, or is "measurable" but not "earned" under the accrual basis of accounting. Unearned revenues also arise when resources are received by the PBC before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the PBC has a legal claim to the resources, the liability for unearned revenue is removed and revenue is recognized.

e. Cash and Investments

Cash and Cash Equivalents

For purposes of the statement of cash flows, the PBC's proprietary fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Investments

Investments with a maturity greater than one year at time of purchase, if any, are stated at fair value. Nonnegotiable certificates of deposit and all other investments are reported at cost.

f. Interfund Transactions

Interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund service transactions and reimbursements, are reported as transfers.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, if any, reported in the fund financial statements are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

h. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the PBC as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year, except for land improvements, where the cost must be greater than \$50,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Buildings, building improvements and land improvements are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Years |
|-----------------------|-------|
| | |
| Buildings | 40 |
| Building improvements | 10 |
| Land improvements | 8-20 |

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Long-Term Obligations

In the government-wide financial statements and proprietary fund in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts, as well as issuance costs and gain (loss) on refundings, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs and the gain (loss) on refunding are reported as unamortized bond costs and unamortized loss (gain) on refunding and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

j. Fund Balances/Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. None of the PBC's net assets are restricted as a result of enabling legislation adopted by the PBC. Invested in capital assets, net of related debt is the net cost (book value) of the capital assets, less the principal of any long-term debt outstanding that was issued to construct, purchase or otherwise acquire the capital asset.

2. DEPOSITS AND INVESTMENTS

The PBC maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the PBC's funds. The PBC operates under an investment policy that limits the PBC to make deposits/ investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, investment grade obligations of state and local governments, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, Illinois Funds and local government investment pools.

2. DEPOSITS AND INVESTMENTS (Continued)

It is the policy of the PBC to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the PBC and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is legality, safety (preservation of capital and protection of investment principal), liquidity and yield.

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the PBC's deposits may not be returned to it. The PBC's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance with the collateral held by an independent third party acting as the PBC's agent. All of the County's deposits were covered by either FDIC or collateral held by an independent third party acting as the PBC's agent at December 31, 2010.

b. Investments

In accordance with its investment policy, the PBC limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed within a short-term (annual) period. The investment policy limits the maximum maturity length of investments to five years. In addition, the policy does require the PBC to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations and prohibits the selling of securities prior to maturity except in limited circumstances.

The PBC limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government (U.S. Treasury obligations and U.S. agency obligations).

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the PBC will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the PBC's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the PBC's agent separate from where the investment was purchased.

DEKALB COUNTY PUBLIC BUILDING COMMISSION SYCAMORE, ILLINOIS NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

Concentration of credit risk - The PBC's investment requires diversification of the portfolio and does not permit greater than 67% of the portfolio to be invested in any one institution or investment vehicle, other than U.S. Treasury obligations.

In addition, the PBC's investment policy prohibits the investment in any type of derivative.

3. CAPITAL ASSETS

4. LEASES RECEIVABLE

a. Operating Lease

The PBC has entered into an operating lease agreement with the County which requires the following annual rentals due from the County on November 1 of the year indicated.

| Year | |
|-------|------------------|
| 2011 | \$ 1,975,000 |
| 2012 | 2,100,000 |
| 2013 | 2,225,000 |
| 2014 | 2,365,000 |
| 2015 | 2,515,000 |
| 2016 | 2,670,000 |
| 2017 | 2,825,000 |
| 2018 | 3,000,000 |
| 2019 | 3,175,000 |
| 2020 | 3,360,000 |
| | |
| TOTAL | \$ 26,210,000 |

The PBC is responsible for maintenance, operation, upkeep and safekeeping of the County Government Complex (the Complex). The County may be responsible for paying costs of operating and maintaining the Complex to the extent that rentals are not sufficient.

If at any time during the term of this lease all of the financial claims upon the PBC shall be paid in full or provision made for such payment, then this lease may, at the option of the County, be terminated by written notice to the PBC.

Revenues received from the County in the form of lease payments are to be credited to funds as follows:

1) Operating Fund

The annual rent shall be allocated first to the Operating Fund to provide for the usual and necessary costs of the PBC of operating, maintaining and managing the Complex including administrative costs and the costs of renting and maintaining office equipment.

DEKALB COUNTY PUBLIC BUILDING COMMISSION SYCAMORE, ILLINOIS NOTES TO FINANCIAL STATEMENTS (Continued)

4. LEASES RECEIVABLE (Continued)

a. Operating Lease (Continued)

2) Renewal and Replacement Fund

From annual rentals due on and after November 1, 1993, the PBC shall deposit into the Renewal and Replacement Fund the lesser of \$250,000 or the amount required to equal the lesser of \$1,500,000 or an amount to be determined by the County Board in a resolution. Money shall be applied to the payment of nonrecurring major repairs, renewals, replacements or maintenance items and furnishings and equipment. The aggregate amount withdrawn from this fund in any fiscal year may not exceed \$50,000 without the prior approval of the County Board. The required \$1,500,000 has been accumulated in the capital projects governmental fund.

3) Surplus Fund

After allocation of the annual rent to the Operating Fund and the Renewal and Replacement Fund, any remaining amount of the annual rent would be deposited here.

b. Financing Lease

During 1997, the PBC entered into a new financing lease with the County for construction of a new County Nursing Home/Health Department facilities, which were constructed with the proceeds of the 1997 Lease Revenue Bonds. During fiscal year 2005, the PBC issued the Series 2005 Lease Revenue Refunding Bonds to advance refund, through a crossover refunding, the 1997 Lease Revenue Bonds maturing after December 1, 2007. As part of the refunding, a new financing lease was entered into with the County.

The PBC is responsible for maintenance, operation, upkeep and safekeeping of the County Nursing Home/Health Department. The County may be responsible for paying costs of operating and maintaining the Nursing Home/Health Department to the extent that rentals are not sufficient.

If at any time during the term of this lease all of the financial claims upon the PBC shall be paid in full or provision made for such payment, then this lease may, at the option of the County, be terminated by written notice to the PBC.

4. LEASES RECEIVABLE (Continued)

5. LONG-TERM DEBT (Continued)

On June 1, 2005, the PBC issued \$7,155,000 Lease Revenue Refunding Bonds, dated June 1, 2005 to advance refund, through a crossover refunding, the 2008-2016 principal maturities of the 1997 Lease Revenue Bonds on December 1, 2007 (the crossover date) and to pay the interest on the 2005 Lease Revenue Refunding Bonds through December 1, 2007. The 2005 bonds are due serially from December 1, 2008 through December 1, 2016 in amounts ranging from \$685,000 - \$925,000. Interest is payable semiannually each June 1 and December 1 at amounts ranging from 3.50% - 4.25%.

The bonds are secured by a lease with the County (see Note 4b). Debt service to maturity is as follows:

| Fiscal Year | Principal | Principal Interest | | | | |

6. RISK MANAGEMENT

The PBC is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters. The PBC has purchased commercial insurance for surety bond coverage and is included under the liability insurance fund of the County for all other risks. There are no full-time employees of the PBC and the part-time employees are not eligible for health insurance. Therefore, no health insurance is provided and there is no potential other postemployment benefit to be reported.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

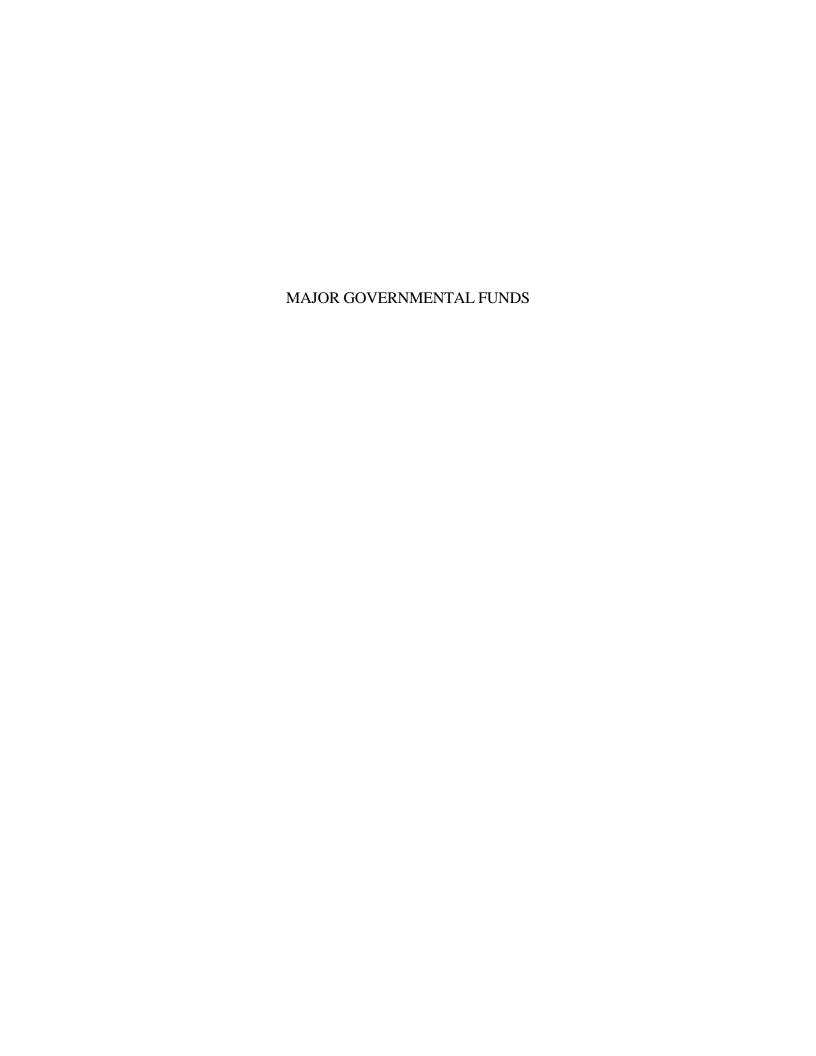

December 31, 2010

1. BUDGETS

Formal budgetary integration is employed as a management control device. Budgets are adopted on a basis consistent with generally accepted accounting principles. An annual budget is adopted for all funds except the Capital Improvements Fund. The annual budget lapses at fiscal year end.

The PBC prepares an operating budget which summarizes the budget units and recommends the proposed appropriations. The appropriations are approved by the Board of Commissioners and may be amended by the Board of Commissioners. Expenditures may not exceed the budget at the fund level. During the period, no budget amendments were approved.
