The Honorable Chairman
Members of the County Board
and Management
DeKalb County
200 North Main Street
Sycamore, Illinois 60178

Ladies and Gentlemen:

As part of our audit process we are required to have certain communications with those charged with governance at the beginning of our audit process and at the conclusion of the audit. Those communications include information related to the planned scope and timing of our audit, as well as other information required by Auditing Standards. Our communication at the beginning of our audit process along with our questionnaire regarding Consideration of Fraud in a Financial Statement Audit was sent to you on March 30, 2017.

Auditing standards require the communication of internal control related matters to those charged with governance. Our communication of these matters is enclosed within this document.

This information is intended solely for the use of the Chairman, Members of the County Board, and management of DeKalb County and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Sikich LLP

June 19, 2017

The Honorable Chairman
Members of the County Board
DeKalb County, Illinois

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of DeKalb County, Illinois, (the County) for the year ended December 31, 2016. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated November 10, 2016. Professional standards also require that we communicate to you the following information related to our audit.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2016. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We noted no particularly sensitive financial statement estimates made by management during our audit of the financial statements, except for the actuarial assumptions used to calculate the total pension liability.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. We noted no particularly sensitive financial statement disclosures made by management during our audit of the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole, with the exception of AJE 01 and AJE 02 on the attached schedule.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 19, 2017.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the combining and individual fund financial statements and schedules listed in the table of contents that accompanies the basic financial statements. We made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the basic financial statements. We compared and reconciled the combining and individual fund financial statements and schedules to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves.

We were not engaged to report on the introductory section or the statistical section, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of the Chairman, Members of the County Board, and management of DeKalb County and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Sikich LLP

**COMMUNICATION OF DEFICIENCIES
IN INTERNAL CONTROL AND
OTHER COMMENTS TO MANAGEMENT**

December 31, 2016

Members of American Institute of Certified Public Accountants

**COMMUNICATION OF DEFICIENCIES IN INTERNAL CONTROL
AND OTHER COMMENTS TO MANAGEMENT**

Mr. Gary Hanson, County Administrator
Mr. Peter Stefan, Finance Director
DeKalb County, Illinois

As part of the annual audit, we are required to communicate internal control matters that we classify as significant deficiencies and material weaknesses to those charged with governance. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis.

During our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. In addition, we reviewed the status of the comments from the December 31, 2015 audit. The status of these comments is included in Appendix A. This letter does not affect our report dated June 19, 2017, on the basic financial statements of the County.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with the Finance Director, Peter Stefan, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

This memorandum is intended solely for the information and use of management, and is not intended to be, and should not be, used by anyone other than these specified parties.

Sikich LLP

Naperville, Illinois
June 19, 2017

DEFICIENCIES

1. Internal Controls

During our documentation and review of the County's internal controls, we noted opportunities for the County to strengthen internal controls over certain processes and transaction cycles.

Segregation of duties is a critical component of any organization's internal control structure. During our review of controls, we noted that employees who have access to accounts payable, receivable and payroll records also have access to open mail. We recommend that employees that open mail have limited access to these records.

During our review of the documentation maintained at the Sheriff's office, we noted that there is no formal documentation or procedure to show review of monthly reconciliations. We recommend that all reviews are properly documented with an employee signature.

During our review of the pay rate approval process, we noted that new pay rates are approved verbally, and that not all new pay rates are formally reviewed. We recommend that all pay rate changes are formally reviewed, and approved in writing or with a signature.

Throughout our review of internal controls, we noted that certain reviews and approvals were not being completed in a timely manner. Timely review of financial information is important to ensure that work is being performed and approved correctly and in the proper period, and to help identify any errors as early as possible. Sikich noted certain check registers and payroll reports that were not reviewed and approved on a timely basis. We recommend that the County review and document approval on all necessary reports in a timely manner in order to keep controls operating effectively.

2. Credit Card Purchases & Procedures

During testing of credit card transactions, Sikich noted the following exceptions to County credit card usage policy: Three food (restaurant) receipts that did not include an itemized list to show the items purchased, one of which did not include documentation outlining the business purpose of the purchase. Additionally, we noted several instances of purchases that included sales tax.

We recommend that all employees comply with the established County policy in order to help ensure that all purchases are necessary and appropriately documented.

3. Journal Entries and Procedures

During testing of manual journal entries made by the County for fiscal year 2016, we noted that there was no documentation of review or approval and the only sign-off was by the individual who prepared the entry. Based on discussions with County employees, we determined that while it is the County's practice to have a review of any journal entry, there is no established process that ensures all journal entries are reviewed by an employee other than the employee that creates and posts the entry.

DEFICIENCIES (Continued)

3. Journal Entries and Procedures (Continued)

We recommend the County establish a formal journal entry review process that outlines what type of entries are required to be reviewed and approved by someone else within the Finance Department. This will help to ensure that all required entries are properly reviewed, helping to mitigate the risk of errors and enhancing internal controls to limit the potential for management override.

4. Animal Control Revenue/Animal Tag Sales

During testing of animal tag sales, Sikich noted the following: The revenue report provided by Animal Control was greater than the amount listed in the trial balance. Sikich's recalculation of revenue from animal tag sales was greater than the report still. We noted that there was no reconciliation performed to agree the cash received/revenue recorded to the number of tags sold.

We recommend that the County create a reconciliation process over animal tag sales that agrees the revenue received and recorded to the number of tags sold (based on the established tag rates). This will help the County ensure that all revenue from animal tag sales is being properly recorded.

**APPENDIX A
STATUS OF COMMENTS FROM DECEMBER 31, 2015**

DEFICIENCIES

1. Purchasing Procedures

During our review of the County purchasing policy and our tests of compliance with the purchasing policy, we noted certain opportunities for the County to strengthen the internal controls over the purchasing function.

First, we recommend that the County consider centralizing purchasing and receiving. Centralizing the purchasing and receiving processes will allow for more effective monitoring of compliance with the County's established purchasing policy.

Next, we noted that the purchasing process is initiated by verbal approval from a department head. We recommend that formal documentation of department head approval is maintained and tracked within the County's purchasing module.

Status: Comment still applicable at December 31, 2016.

2. Cash Receipting Procedures

We noted during our testing of cash receipts that the County does not have a centralized department that processes billing and invoicing and cash receipting. We recommend that the County consider adoption of a centralized cash receipting process to ensure all amounts are being billed, invoiced, and collected in a consistent matter. Alternatively, if decentralized billing, invoicing and cash receipting is maintained, the County should develop and implement a standardized billing, invoicing and cash receipting procedure manual.

Additionally, during our testing of internal controls at the Regional Office of Education, we noted that one individual is responsible for recording the cash receipts and preparing the deposit slip. We recommend that these duties are segregated to the extent possible to improve the control environment.

Status: Comment still applicable at December 31, 2016.

Sikich Snapshot

Organization

Sikich LLP, a leading professional services firm specializing in accounting, technology, investment banking* and advisory services**, has more than 750 employees throughout the country. Founded in 1982, Sikich now ranks as one of the country's Top 30 Certified Public Accounting firms and is among the top 10 of all enterprise resource planning solution partners in the country.
