The Honorable Chairman
Members of the County Board
DeKalb County
Sycamore, Illinois

In planning and performing our audit of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of DeKalb County, Illinois (the County) as of and for the year ended December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report is intended solely for the information and use of the Chairman, the County Board and the management of the County and is not intended to be and should not be used by anyone other than those intended parties. We are available to discuss any of these comments and to assist in their implementation if requested.

Sikich LLP

Future Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued a number of pronouncements that may impact the County in the future.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments and replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as they relate to governments that provide benefits through OPEB plans administered as trusts or similar arrangements that meet certain criteria. Statement No. 75 requires governments providing defined benefit OPEB to recognize their long-term obligation for OPEB as a liability for the first time, and to more comprehensively and comparably measure the annual costs of OPEB benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI). The provisions in Statement No.75 are effective for the fiscal year ending December 31, 2018.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this standard are effective for the fiscal year ending December 31, 2019.

GASB Statement No. 84, *Fiduciary Activities*, establishes criteria for identifying fiduciary activities. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this standard are effective for the fiscal year ending December 31, 2019.

GASB Statement No 85, *Omnibus 2017*, addresses a number of issues across a spectrum of topics including issues related to blending component units where the primary government is a business type activity that reports basic financial statements in a single column, accounting for goodwill, fair value measurement and application related to real estate held by insurance activities and measuring certain investments at cost or amortized cost, and various issues related to accounting and reporting for postemployment benefits (pensions and other postemployment benefits [OPEB]). Statement No 85 is effective for fiscal years ending December 31, 2018.

OTHER COMMENTS (Continued)

Future Accounting Pronouncements (Continued)

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, is intended to improve accounting and financial reporting for in-substance defeasances of debt, prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this statement are effective for the fiscal year ending December 31, 2018. Earlier application is encouraged.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset and aims to enhance comparability of financial statements among governments. This statement also requires additional notes to the financial statements related to the timing, significance, and purpose of a government's leasing arrangements. The requirements of this statement are effective for the fiscal year ending December 31, 2021. Earlier application is encouraged.

GASB Statement No 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, was issued in March 2018 and provides guidance on improving disclosures in the notes to the financial statements related to debt, including direct borrowings and direct placements of debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. This statement is effective for the fiscal year ending December 31, 2019.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, was issued in June 2018 and requires that interest cost incurred before the end of a construction period be recognized as an expense/expenditure in the period in which the cost is incurred. This statement is effective for fiscal years ending December 31, 2020.
