Fax: (815) 756-8705

TO WHOM IT MAY CONCERN:

DATE: October 12, 2015

REF: DeKalb County Bid Letting Scheduled for October 14, 2015,
Section 15-00253-00-PK Southeast Parking Lot

This letter will serve as notice that an addendum to the above referenced project has been published.

Enclosed is an updated page 2 of the Schedule of Prices for Section 15-00253-00-PK and an additional page for the Special Provisions. Three pay items have been added: Non-Special Waste Disposal, Special Waste Plans & Reports, and Soil Disposal Analysis.

Please remove and destroy the current page 2 of the Schedule of Prices and replace it with the attached page 2 of the Schedule of Prices.

Please add the attached page 21 of the Special Provisions after page 20 of the Special Provisions.

This addendum adds three pay items to the Schedule of Prices and the Special Provisions.

In addition, a copy of this cover letter is to be attached to any bid proposal returned by your company as proof of receipt thereof.

If you have any questions concerning this addendum please do not hesitate to contact this Department.

Very truly yours,

Nathan F. Schwartz, P.E.
County Engineer

SOIL DISPOSAL

Description. This work shall consist of the off-site disposal of potentially contaminated material generated by the construction activities of the project at an Illinois-permitted landfill. Prior to the disposal of material, the Contractor will stockpile the soil at locations on the County campus property permitted by the Engineer. Soils excavated from various areas of the site may be placed in separate stockpiles at the discretion of the Engineer.

Contractor's Responsibility. The stockpiles are to be stabilized and protected with Perimeter Erosion Barrier and Temporary Erosion Control Seeding. Prior to transporting any soil off-site for disposal, it shall be the Contractor's responsibility to select an appropriate transporter and a disposal facility for non-special waste. For any soil that is not targeted for reuse the Contractor shall collect a representative soil sample for laboratory analysis of the code(s) specified by the selected disposal facility. The Contractor shall use the results of the analyses to profile the waste soil for acceptance at the disposal facility.

The Contractor shall maintain shipping tickets for use to transport material to the disposal facility and is responsible for coordination with such facility on operating hours. Additionally, the Contractor shall verify and record all loads transported to a disposal facility.

Method of Measurement. This work will be measured for payment on a unit price per cubic yard of non-special waste disposed at an Illinois-permitted landfill, per lump sum of special waste plans and reports, and per each of soil disposal analysis. Only materials requiring disposal as non-special waste will be measured for payment as NON-SPECIAL WASTE DISPOSAL. Disposal of all other materials will be paid for as part of the Lump Sum price for SITE GRADING.

Perimeter Erosion Barrier and Temporary Erosion Control Seeding will be measured and paid for separately at the contract unit price.

Basis of Payment. This work will be paid at the contract unit price per cubic yard for NON-SPECIAL WASTE DISPOSAL, per lump sum for SPECIAL WASTE PLANS AND REPORTS, and per each for SOIL DISPOSAL ANALYSIS.

Pay Item Number	Designation	Unit of Measure
66900200	NON-SPECIAL WASTE DISPOSAL	CU YD
66900450	SPECIAL WASTE PLANS AND REPORTS	L SUM
66900530	SOIL DISPOSAL ANALYSIS	EACH
